3. Claims 1 and 3-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1: in lines 3-4, "each transmission comprising a first and second protocol layer via a communication network" is apparently not idiomatic English in context and apparently should be "each transmission involving a first and second protocol layer and being carried via a communication network", or the like; in lines 10-11, "packets with a sequence number" is apparently not idiomatic English in context and apparently should be "packets with sequence numbers"; in lines 17-18, "allocating ... packets of the first protocol layer on the second protocol layer" is apparently not idiomatic English in context and apparently should be "allocating ... packets of the first protocol layer, in the second protocol layer".

In claim 3: "a corresponding sequence number" is apparently not idiomatic English in context and apparently should be "corresponding sequence numbers".

In claim 5: "data of the first protocol layer" is apparently not idiomatic English in context and apparently should be "data packets of the first protocol layer".

In claim 8: "the sequence number" is apparently not idiomatic English in context and apparently should be "each sequence number".

In claim 16: in line 3: "on the" is apparently not idiomatic English in context and apparently should be "by";

In claim 24: in lines 3-4, "each transmission comprising a first and second protocol layer via a communication network" is apparently not idiomatic English and apparently should be "each transmission involving a first and second protocol layer and being carried via a communication network", or the like; in lines 7-8, "packets with a sequence number" is apparently not idiomatic English in context and apparently should be "packets with sequence numbers"; in lines 14-15, "allocating ... packets of the first protocol layer on the second protocol layer" is apparently not idiomatic English in context and apparently should be "allocating ... packets of the first protocol layer, in the second protocol layer".

Conclusion

4. Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
